

PARTNERSHIP

Where Your Money Goes

Katie Beth Carter Memorial High School will have grades 7-11 and will be centrally located to all 7 barrios in Tomas Borge. There will be a strong focus on relationships and academics.

Many of the students that will be attending do not get 3 meals a day. Each student will get at least one healthy meal every day while at school.

In 2018, 3 full time missionaries will be moving to Leon to work in Tomas Borge. Among them is a Physician's Assistant who has dreams of one day opening up a clinic next to the school.

The school is currently under construction. We have dreams of building other facilities on the property such as a clinic, team house, chicken house, and much more.

In 2017 Tomas Borge had its first community baseball team and competed with other communities in Leon. Coach Mauricio and his staff do a great job with the boys!

Nicamerican Missions hired Tammy Barcenas in 2018 as their communications Coordinator. Students regularly meet with Tammy to learn and use leadership skills within their community.

There is hope that in the future the property will have an area that includes farming and live stock. This agriculture will create jobs, teach poultry training, and provide food for the school.

ESOL classes are provided for young mothers to help them learn the English language. This skill helps their marketability tremendously for employment.
